[50 FR 24172, June 10, 1985, as amended at 59 FR 67610, Dec. 30, 1994; 66 FR 21057, Apr. 27, 2001]

§ 319.76-4 Inspections and treatments.

(a) Live bees, other than honeybees of the genus *Apis*, in any life stage shall be microscopically inspected by an inspector for exotic bee diseases and parasites, and any bee disease or parasite found will be physically removed by an inspector or destroyed by an inspector by treatment with a pesticide registered by the Environmental Protection Agency under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (7 U.S.C. 135 *et seq.*), for use on bees and used in accordance with directions on the label in connection with the registration under the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. The inspection may include dissection of a statistically designed representative sample of the bees, if deemed necessary by the inspector for determinations concerning the absence or presence of bee diseases or parasites. If the inspector determines that a disease or parasite cannot be removed or otherwise destroyed, the bees shall be killed by immersion in a solution containing at least 70% alcohol.

(b) Any dead bees for research at the time of importation must be in a solution containing at least 70% alcohol, or must be in a dry, sealed container. If in a dry, sealed container, the dead bees shall be kept in the container under the control of an inspector at the port of entry for 7 days.

(c) Any restricted article not covered by paragraph (a) or (b) of this section, prior to movement into the United States from the port of entry, shall be treated under the supervision of an inspector as follows:

(1) Dead bees; used bee boards, hives, nests, or nesting material; used bee-keeping equipment; and pollen for bee feed shall be treated in an airtight chamber with 450 mg of ethylene oxide per liter of chamber space at a tem-

perature of at least 100 °F (37.78 °C) for 8 hours.

(2) Beeswax that has not been liquefied shall be melted.

(3) Honey for bee feed shall be heated to 212 °F (100 °C) for 30 minutes.

§ 319.76-5 Marking and shipping.

(a) Any restricted article for importation by means other than mail shall at the time of importation bear on the outer container (if in a container) or on the article (if not in a container) the following information:

(1) General nature and quantity of the contents,

(2) Country or locality of origin,

(3) Name and address of shipper, owner, or person shipping or forwarding the article,

(4) Name and address of consignee, and

(5) Identifying shipper's mark and number.

(b) Any restriction article for importation by mail must be addressed and mailed to Plant Protection and Quarantine at a port of entry designated by an asterisk in § 319.37-14(b) of this part; must be accompanied by a separate sheet of paper within the package bearing the name, address, and telephone number of the intended recipient; and must bear on the outer container the following information:

(1) General nature and quantity of the contents,

(2) Country or locality of origin, and

(3) Name and address of shipper, owner, or person shipping or forwarding the article.

(c) Any restricted article must be accompanied at the time of importation by an invoice or packing list indicating the contents of the shipment.

(d) Live bees in any life stage, other than honeybees of the genus *Apis*, may be imported only in loose cells within noncrushable (hard plastic, wood, or metal), insect-proof containers.

(Approved by the Office of Management and Budget under control number 0579-0072)

§ 319.76-6 Arrival notification.

Promptly upon arrival of any restricted article at a port of entry, except for mail shipments, the importer must notify Plant Protection and Quarantine of the arrival by such
